Gentlemen:

This will confirm the following agreement between us:

1. You agree to accept from us one live lion, and you agree to transport the same to Roosevelt Field, New York, by non-stop airplane flight, all subject to the terms and conditions hereinafter set forth.

2. You agree that the airplane in which said lion is to be transported will be landed at Clover Field, Santa Monica, California, at least two (2) days before the commencement of said non-stop flight. You will give us at least two days notice before said landing at Clover Field, in order to allow us to make adequate preparations for publicity, exploitation, and for the delivery to you of said lion. Said lion is to be delivered by us to you at the time of said landing at Clover Field.

3. You agree that the cage in which said lion is to be kept while on said airplane will be so placed and constructed that at least the head of said lion will be clearly visible from the outside of the plane and between the struts of said plane. You further agree that we shall have the sole and exclusive right to take and issue photographs and motion pictures of said airplane, lion and flight. You agree that all publicity and exploitation in connection with this flight shall be handled solely and exclusively by us, and that you will not, either directly or indirectly, release or issue any photographs in connection with said flight or any publicity or exploitation matter without in each instance having first obtained our written approval thereto. We are to have the right to place such advertising on said plane (except on the tail) as we may desire. Whenever possible in connection with publicity issued by us we will mention the fact that the plane used is a Ryan plane.
